\$11.95

Miske Looks Good To Fans For Dempsey

BY ED W. SMITH
(Written for the I. N. S. Service)
CHICAGO, Aug. 20.—Those fight fans that saw Billy Miske put in his first days workout for the Dempsey fight, September 6, here, yesterday came away with a regular impression. Most of them who spoke to me after the four round display of boxing and the wrestling told me they thought Miske would put up a regular battle with the champion, and others—and they were in the minority—expressed the belief that Dempsey would beat him, but only after a tough fight.

Miske gave the fans a nice display considering that he is not extending himself in the least at the present time. Miske went two rounds of a vigorous nature with the ancient but still very good Jack Blackburn, old time light and middleweight fighter, and after that they brought out a young middleweight, named Jimmy Delaney from St. Paul. He is very fast and clever, and kept Miske moving every minute of the time.

They talk about me being a sick man, Miske and I are both in good shape, without an ounce of training and every inch of him seems to be "fresh."

He looked to be almost an exact replica of Dempsey, as far as actual size is concerned. He's about as tall, about as broad, and while there's a general shape of the men, little disparity can be noted. The Dempsey chest is fuller and the Dempsey arms a bit more club-like, but outside of this they are about the same—a good-looking good match.

Miske will work out here again this afternoon and tonight will go to Stanton Harbor where he will complete his training.

THINK DAY OF LOWER SUGAR COST HAS COME

Departments See Prices Below 20c a Pound—Present Supply Is Large.

WASHINGTON, Aug. 20.—Government authorities believe that the day of lower prices for sugar is at hand. This opinion was reached by both the department of justice and the agricultural department, after each had made its own investigation.

These departments join in predicting that sugar from this time on will be selling for less than 20 cents a pound. The authorities express the view that

the profiteer and the speculator have had their day and that the law of supply and demand will get back to work.

There also is general agreement that there was only little excuse for the hysteria over sugar in the last year, and there is further agreement that prices never should have gone as high as they did. It is asserted that there always has been a sufficient supply of sugar; that the activity of the speculators and the general belief that there was a short crop were largely responsible for the shortage which actually prevailed, as far as the retail dealers were concerned.

A Woman Doctor.

says, "Eugenics is a necessary factor in the future of the race. The average American girl is unfit for motherhood." This may be true, but if weak and ailing girls passing from girlhood to womanhood would only rely, as thousands do, upon Lydia E. Pinkham's Vegetable Compound—that simple remedy made from roots and herbs—to restore the system to a normal healthy condition, it would cause many ills from which they suffer to disappear, so that motherhood might become the joy of their lives.—adv.

OUR PROFITLESS SALE

Will feature a number of extraordinary specials for tomorrow's selling. If you have not yet attended this sale, come tomorrow sure.

S. and M. Mandel & Co.
